

Program - VI

Objective: write an HTML code to create a frameset having header, navigation, and content section.

```
<html>
<head>
<frameset rows = "100,*">
<frame src = "header.html" name = "header" scrolling = "no"
<frameset cols = "200,*">
<frame src = "navigation.html" name = "navigation" scrolling =
"no" noresize>
<frame src = "content.html">
</frameset>
</head>
</html>
```

Output

Newsletter

<ul style="list-style-type: none">• <u>Overview</u>• <u>News and Notices</u>• <u>Updates</u>• <u>Helpdesk</u>	Thankyou for visiting my website.
--	-----------------------------------

```
<html>  
<body>  
<h1 align="center">NEWSLETTER</h1>  
</body>  
</html>
```

Output

NEWSLETTER

```
<html>  
<body>  
<h2> Thank you for visiting my website </h2>  
</body>  
</html>
```

Output

Thank you for visiting my website

```
<html>
<body>
<h3>
<ul>
<li><a href = "overview.html" target = "_blank"> Overview </a>
</li>
<li><a href = "News and Notices.html" target = "_blank"> News and Notices updates </a></li>
<li><a href = "helpdesk.html" target = "_blank"> Helpdesk </a>
</li>
</ul>
</h3>
</body>
</html>
```

Output

- Overview
- News and Notices updates
- Helpdesk
